## *De industriële eigendom*

## Inleiding

### Hoofdblad

Het Blad de Industriële Eigendom verschijnt op de derde werkdag van een week. Indien Octrooicentrum Nederland op deze dag is gesloten, wordt de verschijningsdag van het blad verschoven naar de eerstvolgende werkdag, waarop Octrooicentrum Nederland is geopend. Het blad verschijnt alleen in elektronische vorm. Elk nummer van het blad bestaat uit 14 rubrieken.

### Bijblad

Verschijnt vier keer per jaar (januari, april, juli, oktober) in elektronische vorm via [www.rvo.nl/octrooien](http://www.rvo.nl/octrooien). Het Bijblad bevat officiële mededelingen en andere wetenswaardigheden waarmee Octrooicentrum Nederland en zijn klanten te maken hebben.

### Abonnementsprijzen per (kalender)jaar:

Hoofdblad en Bijblad: verschijnt gratis in elektronische vorm op de website van Octrooicentrum Nederland.

## Introduction

### Patent Bulletin

The Patent Bulletin appears on the 3rd working day of each week. If the Netherlands Patent Office is closed to the public on the above mentioned day, the date of issue of the Bulletin is the first working day thereafter, on which the Office is open. Each issue of the Bulletin consists of 14 headings.

### Official Journal

Appears four times a year (January, April, July, October) in electronic form on the [www.rvo.nl/octrooien](http://www.rvo.nl/octrooien). The Official Journal contains announcements and other things worth knowing for the benefit of the Netherlands Patent Office and its customers.

### Subscription rates per calendar year:

Patent Bulletin and Official Journal: free of charge in electronic form on the website of the Netherlands Patent Office.

| <b>Rubriek EP5</b><br>Bevat gegevens betreffende voor Nederland verleende gewijzigde                                                                                                   | 467 <b>Heading EP5</b><br>Contains data concerning European patents granted in amended form for                                                                                          | 467         |

Europese octrooien waarvoor een gewijzigde vertaling is ingediend.

The Netherlands in which an amended translation was filed.

**Rubriek SPC**

Bevat gegevens betreffende ingeschreven en verleende certificaten

**468Heading SPC**

Contains data concerning applications for- or granted Supplementary Protection Certificates.

468

**Rubriek VB1**

Bevat gegevens betreffende rechten waarvoor een verzoek of bezwaarschrift is ingediend conform de Octrooiwet 1995.

**469Heading VB1**

Contains data concerning requests and notices of opposition under the General administrative law.

469

**Rubriek VB2**

Bevat gegevens betreffende rechten waarin een beslissing is genomen of waarvoor een nieuwheidsrapport is uitgegaan op een verzoek- of bezwaarschrift conform de Octrooiwet 1995.

**472Heading VB2**

Contains data concerning requests and notices of opposition under the General administrative law in respect of which a decision has been taken or in respect for which a report has been made.

472

**Rubriek MED**

Bevat gegevens betreffende overige mededelingen.

**474Heading MED**

Contains data concerning other communications.

474

**Rubriek VRV**

Bevat gegevens betreffende verval of nietigverklaring.

**475Heading VRV**

Contains data concerning lapse or annulment.

475

**Rubriek VRB**

Bevat gegevens betreffende verbeteringen op eerdere publicaties.

**478Heading VRB**

Contains data concerning corrections on earlier publications.

478

**Rubriek CO**

Bevat gegevens betreffende wijzigingen in het octrooiregister.

**479Heading CO**

Contains data concerning changes in the Netherland patent register.

479

**Rubriek TVH**

Bevat gegevens betreffende topografieën van halfgeleiderproducten.

**483Heading TVH**

Contains data concerning depots of original topographies of semi-conductor products.

483

## Overzicht van Inid codes

### INID CODES

Inid codes worden gebruikt op de voorpagina van octrooigeschriften en in octrooibulletins. Ze dienen om de verschillende bibliografische gegevens te kunnen begrijpen zonder kennis te hebben van de taal. INID is een acronym van Internationally agreed Numbers for Identification of Data. De definities van INID codes wordt gegeven in de WIPO standaard ST. 9.

### INID CODES

"INID" Codes are used on the front pages of patent documents and in official gazettes to identify various bibliographic data items without knowledge of the language used and the industrial property laws applied. "INID" is an acronym for "Internationally agreed Numbers for the Identification of Data". The INID Codes are usually given in parenthesis adjacent to the appropriate bibliographic data item. The definitions of the INID Codes are given in WIPO Standard ST. 9 (as of November 1998) and are listed below:

|                                                                           |                                                                                                                                                                                                                                                                   |
|---------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (11) Octrooinummer                                                        | (11) Patent number                                                                                                                                                                                                                                                |
| (13) Soort document volgens WIPO standaard 16                             | (13) Kind of document code according to WIPO standard ST.16                                                                                                                                                                                                       |
| (15) Correctie informatie                                                 | (15) Patent correction information                                                                                                                                                                                                                                |
| (21) Octrooiaanvraagnummer                                                | (21) Application number                                                                                                                                                                                                                                           |
| (22) Datum van indiening                                                  | (22) Date(s) of filing application(s)                                                                                                                                                                                                                             |
| (23) Datum tentoonstelling                                                | (23) Date of exhibition                                                                                                                                                                                                                                           |
| (25) Taal van indiening                                                   | (25) Language in which the published application was originally filed                                                                                                                                                                                             |
| (26) Taal waarin de aanvraag is gepubliceerd                              | (26) Language in which the application is published                                                                                                                                                                                                               |
| (30) Voorrangsgegevens                                                    | (30) Priority Data                                                                                                                                                                                                                                                |
| (31) Nummer voorrang                                                      | (31) Number(s) assigned to priority application(s)                                                                                                                                                                                                                |
| (32) Datum voorrang                                                       | (32) Date(s) of filling of priority application(s)                                                                                                                                                                                                                |
| (33) Land van herkomst voorrang                                           | (33) WIPO Standard ST.3 Code indentifying the national patent office allotting the priority application number or the organization allotting the regional priority application number: for international applications filed under the PCT, the code "WO" is used. |
| (34) Oorspronkelijk land van indiening                                    | (34) For priority fillings under the regional or international arrangements, the WIPO Standard ST.3 Code indentifying at least one country party to the Paris Union for which the regional or international application was made.                                 |
| (40) Datum van inschrijving                                               | (40) Date(s) of making available to the public                                                                                                                                                                                                                    |
| (41) Datum van inschrijving van een octrooiaanvraag                       | (41) Date of making available to the public by viewing, or copying on request an unexamined patent document, on which no grant has taken place on or before the said date.                                                                                        |
| (42) Datum van inschrijving van een onderzochte aanvraag (openbaarmaking) | (42) Date of making available to the public by viewing, or copying on request an examined patent document, on which no grant has taken place on or before the said date.                                                                                          |
| (43) Datum waarop de aanvraag ter inzage is gelegd                        | (43) Date of publication by printing or similar process of anexamined document on which no grant has taken place on or before said date                                                                                                                           |

|                                                                                             |                                                                                                                                                                                                     |
