The Grand Green Osaka is a large-scale mixed-use development project in the Umekita area, an urban park spanning approximately 4.5 hectares. The project is a new landmark of Osaka. The new city park "Umekita Park" is one of the world's largest city parks directly connected to a terminal station. Among its highlights is a symbolic 120-meter-long canopy designed by the renowned architectural unit SANAA, creating a striking visual landmark for the park. There is an ATES installed in the park.
