

# **Dutch-German Symposium on Self Healing Materials,**

## **September 30 & October 1 2013**

Dear Sir, Madam,

You are cordially invited to attend the joint symposium covering the Dutch research programs IOP (Innovation Oriented Research Program) and the German DFG (Deutsche Forschungsgemeinschaft) on Self Healing Materials at Goudse Schouwburg in Gouda. The symposium will be a 2-day event on September 30 and October 1<sup>st</sup>.

For the first time the results of two major national research programs in this rapidly growing field will be presented in a single event. We will offer an attractive program covering the latest developments and innovations in the field of self healing materials as well as the details of new projects starting up. The 28 IOP lectures and 12 DFG lectures, will cover all material classes (polymers & composites, metals & ceramics, concrete & asphalt, coatings and functional materials).

This broad range of topics and the opportunity to exchange ideas with researchers and fellow attendees from the industry has been widely appreciated in previous IOP-SHM symposia. During lunchtime and the breaks you will have the opportunity for networking and bilateral contact with the researchers and industry representatives involved and to visit the postersession. Attending this interesting symposium is free of charge.

Please take note of the following logistic information:

- Location: Goudse Schouwburg, (address: Boelekade 67, 2806 AE Gouda the Netherlands, phone: +31.182513750. Route description: [www.goudseschouwburg.nl](http://www.goudseschouwburg.nl))
- Registration will take place from 09.30 - 10.00 hrs
- Hotel suggestions: [www.welkomingouda.nl/index.php/nl/overnachten](http://www.welkomingouda.nl/index.php/nl/overnachten)

For further information about this event the program of the Dutch-German Symposium check the programme. <http://www.agentschapnl.nl/content/programme-iop-symposium-self-healing-materials-2013>

### **Registration**

You can register online for this event.
